

GRADE VALIDATION/ ACADEMIC STANDARD OF MASTERY

Family Tree Private School

Grade Validation

Family Tree Private School will continue to strive toward, and maintain integrity of grades and test results in order to continue our good reputation of unbiased & accurate records.

Validation of grades is required for promotion. Grades that are submitted on Monthly Reports, or transferred from a school, homeschool, or portfolio review are validated based upon the following “grade validation” criteria:

Grade Validation for Standard, College and Honors Diploma Tracks Students in grade levels 4th – 12th require annual, standardized testing to be promoted at or above an average 41%, or verified progress through approved Alternative Testing, or Alternative Assessments. These alternatives are outlined in the Testing Options Page. For example, testing can be done through a portfolio review by the School Administrator. If there is no recent test to validate grades, records will have an “I” for Incomplete. See the “Promotion Policy”.

Grade Validation for credits transferred in that were earned in 8th – 12 grades from other schools, or from homeschool, where credit verification cannot be obtained: High School students enrolling for the first time who were homeschooled, and/or enrolled in a school where credit verification cannot be given or verified, can receive credit for work after they produce a student portfolio to be reviewed by the school administrator, or by submission of a reputable standardized test showing average scores at or above 41%, or by other assessments chosen by the school administrator, and fees paid for years being “testing in”.

Grade Validation for K-7th Students transferring in that are at the K – 7th levels may be placed in the next grade level after submitting records, or by either formal or informal testing, or by providing a “Portfolio” of student work, and there are no additional fees.

Grade Validation for an Exceptional Student Education (E.S.E) student, or a regular education student seeking a **Vocational High School Diploma** (which is not appropriate for academic colleges) is based upon signed parental or teacher confirmation of grades submitted, and meeting the course credit requirements.

Academic Standard of Mastery

Academic Standards of Mastery (ASM) must be met before promotion. ASM include mastering the Benchmarks for K-8th grade as detailed on the Family Tree Minimum Standards Benchmarks derived from www.floridastandards.org, available on the Enrollment Packet Link on the web site. Parents may choose any curriculum that meets, or exceeds these standards. Students must also achieve a minimum cumulative average test score of 41% on a standardized test for promotion and/or graduation for 4th – 12th graders for a Standard Diploma Option or higher. Refer to the “Promotion Policy” for complete description of the testing policies.

All Diplomas awarded will be the Diploma Option that matches course credits completed, with the understanding that the testing requirement is met as well. Students seeking a Standard Diploma or higher, whose scores are lower than 41% will be offered a “Provision” Standard High School Diploma pending resubmission of improved scores averaging at or above 41%, or documentation of accommodations and/or alternative testing according to Promotion policy.

A “Provisional” Standard Diploma may be awarded for purposes of graduation ceremonies, and to validate provisional graduation status. NOTE: A student earning a “Provisional” Standard Diploma will have all Official Records and Transcripts show “I” for Incomplete in the box indicating Graduation until testing is submitted with an average score of 41% or above. Otherwise, the student can be eligible for, and choose to graduate with a Vocational high school Diploma without submitting higher test scores.

FINAL GRADES: Students earning a Standard Diploma Option or higher will have their final grades adjusted based upon the results of a standardized test according to the following scale.

“A” grades are equivalent to an average score at the 60th percentile or above on a standardized test;

“B” is equivalent to an average score of 51-59 % on a standardized test;

“C” is equivalent to an average score of 41-50% on a standardized test.

(Scores lower than 41% need remediation, and require a “Guidance Consultation”).

See the chart below for a summary of what action is taken regarding records, and the granting of diplomas when minimal testing requirements are not met.
